

Perfect all-in-one CCTV solution for small businesses IP Camera 200 Series

Protect and monitor your business today with the new IP Camera 200 Series family of standalone IP cameras from Bosch. The IP Camera 200 Series gives you the convenience of a complete surveillance system, right out of the box. Each camera is fitted with a varifocal lens, bringing crisp, clear color images into the realm of small businesses. Simply take the camera out of the box, plug it in and walk away – it's already recording! The IP Camera 200 Series captures days of video footage on a single SD memory card. The system includes varifocal lens, built-in motion, tamper and audio detection.
